HARRISONS' Town :: :: and Country :: :: ::

READY
MIXED PAINTS

The Best.

Why? Because

They are painters' paints.

They are perfectly pure.

They may be used by any old line painter just as he would use White Lead mixed by himself.

They are uniform.

They are bright as the best Tinting Colors can make them.

They are permanent.

They will stand unlimited brushing out.

The durability of the paint depends on the quality of the pigments. "Town and Country" Paints are perfectly pure White Lead, Zinc White, and the necessary colors to tint them, mixed in exactly the right proportions and ground in pure linseed oil.
